Flight Sling available in all finishes. Available in Versatex sling.

FLIGHT offers elegance with casual sophistication. Its clean lines and modern flares are constructed in cast and extruded aluminum. The arm and side chair stack up to 4 while the chaise stacks 3 high. The innovative use of materials, advanced engineering, and thoughtful design allows Brown Jordan to introduce a collection that is the perfect synthesis of classic and style with a modern twist.

H

designed by Toan Nguyen

BROWN JORDAN™

Named for the first letter of the word “hoy”—“today,” in Spanish— **H** marks a step forward for Brown Jordan, taking a classic mix of materials for a new spin and adding enticing curves and finishes, for a completely fresh look. Rope takes on a key role in H as well, scaling up to a 3-inch diameter for a dramatic, sculptural effect against the collection’s streamlined aluminum frames.

Kantan Aluminum is available in all finishes. Available with 1" Suncloth lace or 1" vinyl lace.

Designed by Tadao Inouye, **KANTAN** Aluminum exemplifies the breezy spirit of southern California, the birthplace of Brown Jordan and year-round outdoor furniture. This collection's graceful frame is offered with 1" Suncloth lace or Vinyl lace. Kantan's resilient Suncloth straps conform to the body to provide comfort and support. Kantan is a chic choice for any outdoor or casual setting, from a poolside patio to the deck of a beachfront cottage.

Parkway

designed by John Caldwell

BROWN JORDAN™

A photograph of a modern outdoor dining set on a patio. The set includes a rectangular table and several chairs with light-colored cushions. On the table are two yellow candles in black holders and a silver bowl. The patio is on a grassy hillside with a mountain in the background. A palm tree is visible on the right side of the image.

Inspired by the golden era of Modernism, **PARKWAY** conjures images of a stately past. A broad, flat extrusion creates a smooth, pleasing touch and complements the frame's lengthy, slender profile. The arms are crisply bent into a rectilinear profile reminiscent of the geometry prominent during the heyday of modern design.

Parkway Modular

All images shown in Titanium finish.

PARKWAY CURVILINEAR provides a modular seating option to coordinate with the popular Parkway Sling and Cushion collection. A right or left arm facing loveseat, an armless chair, a 60-degree ottoman, and a 90-degree module can be positioned to form a circle or a variety of sinuous shapes. Cushions are finished with an exclusive rod insert that eliminates the need for snap tabs, resulting in a clean, refined appearance. Plush, tailored cushions complete the look.

Pasadena/Wave tables are available in all finishes with Aluminum or Glass tops.

A nod to mid-century design and the birthplace of Brown Jordan Company, **PASADENA** defines understated sophistication with its sleek profile. The collection frame features a smooth, flat aluminum extrusion that is gently curvilinear. Sweeping lines seen on the arms and back legs highlight the beauty of the chair's construction.

QUANTUM raised the bar and set a new standard for the casual furniture industry. A contemporary classic, Quantum has garnered international acclaim, including trade and industry award honors. Fluid lines and contoured mesh seating are the distinguishing characteristics of this design - a specification favorite of architects and interior designers.

Swim

designed by Richard Frinier

BROWN JORDAN™

SWIM represents a fresh, light and sporty perspective for outdoor and casual living spaces with its linear profile made of powder-coated aluminum frames and Versatex mesh taut sling upholstery. Its overall clean lines and simple angular detail of the backrest energize the spirit suggesting both movement and activity even at rest.

VENETIAN'S refined silhouette is highlighted by timeless Neoclassic details. The x-back and cross-stretcher are framed by elegantly scaled rectangular lines, including a subtly flared and contoured back. Gracious spiral volute details at the end of the arms, architectural banding details on the legs, and the cross-stretcher are proportionately placed to enhance the overall balance. Venetian easily accents eclectic living scapes that require a more formal design presence.

Pasadena/Wave tables are available in all finishes with Aluminum or Glass tops.

The **WAVE** collection is entirely innovative for its broadly proportioned silhouette and welcoming design. Constructed in extruded aluminum, its contoured seating surfaces twist in a ribbon-like profile, giving the chair a sense of motion and enhancing its sinuous shape. With its ergonomic seating, Wave conforms not only to the range of human shapes and weights, but also to movement.

Bronze (BR)

Available in Bronze Resinweave. Cushions available in Suncloth fabrics.

The modern look of **FUSION** successfully blends the cultural elements of European materials, American design, and Asian craftsmanship. This innovative and contemporary design evokes an attitude of couture furniture while its bold profile generates international appeal. Accented by molded pedestal feet, like the heel or platform of a designer shoe, Fusion features a uniform and textural pattern that weaves the entire form into a solid structure.

Southampton

designed by Richard Frinier

BROWN JORDAN™

SOUTHAMPTON from the Richard Frinier Collection for Brown Jordan is destined to become a new classic. Inspired by the beautiful architecture and lifestyles of the famous seaside colony known as "the Hamptons," this design is timeless for its artfully hand-woven and transitional styling in the natural, dry grass and marsh colors of Seagull.

Above image shown in Sage Resinweave with Linen Sand cushions and pillows.

Drift

designed by Richard Frinier

BROWN JORDAN™

In collaboration with internationally acclaimed and award-winning home furnishings designer, Richard Frinier, Brown Jordan introduces a new teak collection called **DRIFT**. Drift inspires the desire to slow down, drift and dream in both thought and spirit. Its soft-modern silhouette and superior craftsmanship are defined by its low-profile and understatedly elegant and sophisticated form. Plantation-grown Teak in Natural and Driftwood finishes complemented by chic twill fabrics in soothing colors complete this compelling design.

Image above shown in Driftwood Teak with Calm cushions and pillows.

All images above shown in Natural Teak with Calm cushions and pillows.

Calcutta

designed by John Caldwell

BROWN JORDAN™

CALCUTTA is a re-introduction on a grander scale of Calcutta, originally designed in 1967 by Hall Bradley. Inspired by the design themes of Chippendale furniture, Calcutta features cast bamboo patterns on the seat and back, while tapered legs and a lower x-stretcher continue the exotic bamboo pattern. Appropriate for indoor formal dining as well as outdoor use, the Calcutta collection includes dining and deep seating pieces, as well as cast top tables in various sizes.

Brown Jordan introduces **FREMONT CUSHION** and **FREMONT SLING**, a new collection that blends modern simplicity with formal elegance. Designed for outdoor use in any climate, Fremont's finely crafted powder coated aluminum frame is virtually impervious to the elements. Fremont speaks to our customers' desire for luxury, function and ease, and demonstrates Brown Jordan's exceptional fluency with aluminum.

Brown Jordan Advantage

Proprietary Multi-step Powder Coat Technique

Each piece of Brown Jordan aluminum furniture undergoes a rigorous finishing treatment that results in a beautiful, lasting piece of furniture.

Jewel like Welding

A meticulous welding process is taken to prepare assembled frames for painting. Welded joints are ground to achieve uniform dimension. Each frame is then sanded, buffed and polished to achieve a smooth surface allowing for better adhesion for the final powder coat. The end result is a smooth frame with an aesthetically pleasing appearance.

Five-stage Pre-treatment

Each frame is processed in a special pretreatment wash system with the purpose of removing any particles remaining from the buffing and polishing process as well as any remaining oil residue from fabrication while preparing the metal for the paint process. Untreated aluminum is a porous material with naturally occurring microscopic fissures and clefts. The pre-treatment process is a five step application of a detergent wash, clean rinse, special solvent metal preparation bath for superior paint adhesion, and two additional rinse processes to ensure exceptional cleanliness. Clean frames are then heat dried to evacuate any liquid from within the frame.

Hybrid Base Coat Primer Sealant

Our Hybrid primer base coat is an epoxy/polyester blend that creates a superior platform over which the finish color coat is applied. The epoxy portion is a superior bonding agent that is specially formulated to adhere to metal. During the final cure, the epoxy will not reflow, as does the polyester, resulting in a harder sub-coat that protects the metal from corrosion. While the polyester portion does reflow, this process creates a bond with the top finish coat. The outcome is an advanced, integrated bond that results in a superior resistance to paint delamination while providing for improved color and gloss retention.

Powder Coating

The Ultra Fuse powder coat final finish is applied with an electrostatic technique that creates a complete and uniform coating on all areas of the frame, including the bends and corners. The result is an attractive, durable, high-quality finish that will not flake, peel, or blister.
