

EP HENRY®

HARDSCAPING COLLECTIONS
2021 SOURCEBOOK

Welcome to the
2021 EP Henry
Hardscaping Catalog

Reinvented for 2021

As the 4th generation CEO of EP Henry, I can tell you we all take pride on our History of Innovation dating back to the founding of the company in 1903. It's that history that drives us to continually strive to create the finest and most cutting-edge product offering to meet all of our customers' tastes, styles and budgets.

The biggest question most homeowners have when getting ready to embark on any home improvement project is what product(s) to use. Or, put another way, **WHY** this manufacturer over that, **WHY** this product vs. that. This year we try to tackle *"The WHY"* by providing both reasons to choose EP Henry and also which product(s) within our line are best suited to your needs.

But don't take it just from me. Hear from other homeowners—and contractors—like yourself as to *"The Why"*. ❶

Look for these QR Codes throughout the catalog to scan and hear more about specific products and project details from the homeowners and the contractors involved. ❷

Let's kick it off with a testimonial from the owner of the beautiful property featured on our cover. And by the way, he's the contractor, too. ❸

In closing, I would like to thank all of the homeowners and contractors who helped make our 2021 (and past) catalog(s) possible. I hope you enjoy it!

To a safe and healthy 2021,

J.C. Henry

J.C. Henry III
CEO

COLOR DISCLAIMER

Photographic reproduction, print and online screen resolutions do not always present color precisely. For these reasons and to ensure your complete satisfaction with your EP Henry product, we recommend that you visit your local EP Henry Authorized Hardscaping Distributor® or ask your contractor for samples before making a final decision.

SYMBOL KEY

SOLIDIA FAMILY OF PRODUCTS
Denotes product manufactured with Solidia. A better concrete for a greener planet.

ECO PERMEABLE PAVERS
With our eco-friendly paving solutions, you can be sustainable and have a beautiful project.

NO PRIMARY EFFLORESCENCE
Products produced with Solidia concrete have no efflorescence.

DO NOT USE FOR VEHICULAR APPLICATIONS
It is not recommended to use these pavers for residential driveways.

DON'T SCUFF THE PAVERS
EP Henry recommends the use of a protective pad between the plate compactor and the paving stones to prevent surface damage during installation. EP Henry will not be held responsible for compaction scuffs or burns on pavers.

DO NOT USE COMPACTOR
Do not use a plate compactor on these products.

BORDER APPLICATIONS
This pavers make great border options.

GREAT IDEAS/TIPS
Clever trade tips and tricks.

BUDGET FRIENDLY
No sacrifice of quality or beauty with this cost-saving line of pavers and walls.

EPHENRY® BRINGS YOU THE SOLIDIA® Collection

A **BETTER** CONCRETE FOR A **GREENER** PLANET

TWO DISRUPTIVE TECHNOLOGIES =
THE MOST SIGNIFICANT INNOVATION IN THE
CEMENT INDUSTRY **IN 100 YEARS**

- Reducing CO₂ in cement production
- Consuming CO₂ during concrete paver curing
- Up to 70% reduction in the carbon footprint vs. pavers made with Ordinary Portland Cement (OPC)
- 80% conservation of water used as compared to pavers made with Ordinary Portland Cement
- A better concrete in every measurable way

WHY USE EP HENRY SOLIDIA PAVERS ON YOUR PROJECT?

A LIGHTER CEMENT FOR BRIGHTER, MORE VIBRANT COLORS

NO PRIMARY EFFLORESCENCE

**GREATER RESISTANCE
TO DE-ICING SALTS**

Solidia is a game changer in combating climate change and reducing the carbon footprint.

HERE'S WHY:

- 8% of global warming is attributed to concrete.
- If concrete were a country, it would have the third highest carbon footprint after China and the US.
- Concrete is the most commonly used material on the planet after water.
- Very few industries have the ability to significantly affect global warming; concrete is one of them.

SEE HOW WE DO IT
(click QR code)

A concrete, scientific breakthrough

What do EP Henry, Solidia and Rutgers University all have in common? Well besides being NJ based, they are the partners that developed the technology that allows us to produce a paving stone that is superior in every way.

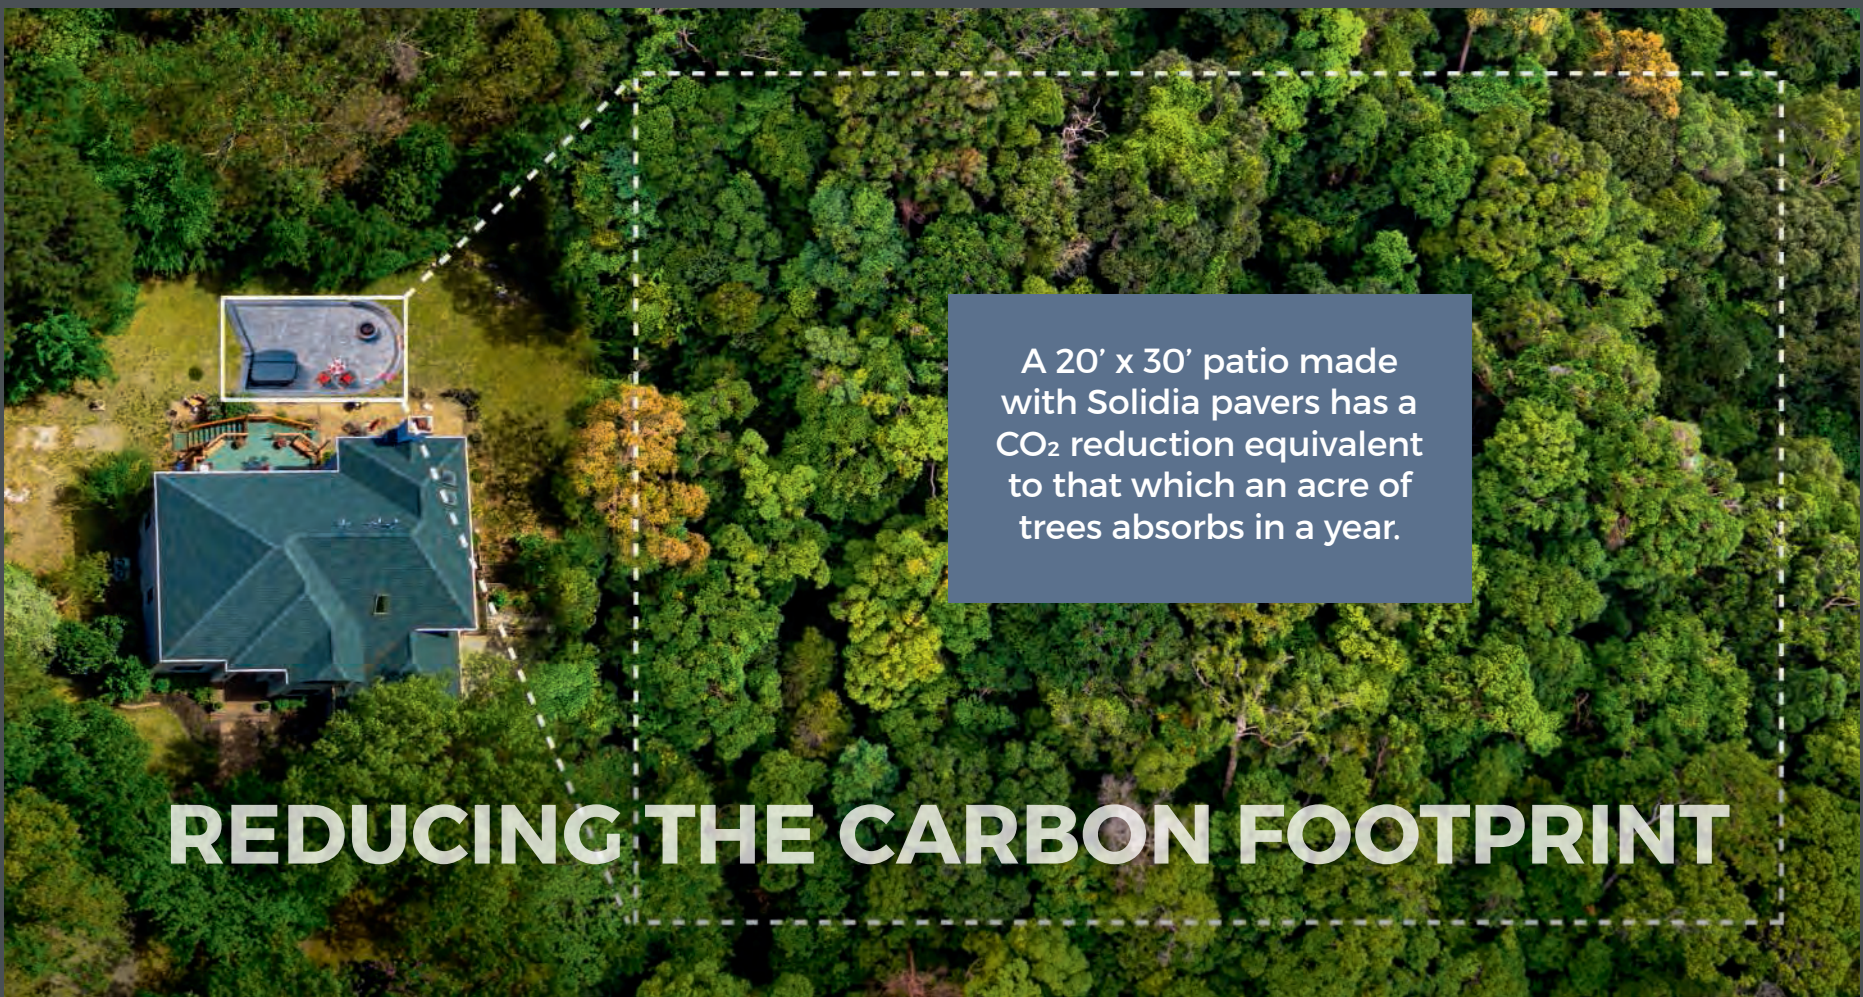

Scientists have long known that curing concrete with CO₂ would make a stronger, more stable and sustainable product but the technology did not exist until the Solidia team partnered with the Rutgers University Materials Science Department and developed a successful formulation. In turn, while they could prove the science worked in the lab, they turned to EP Henry to bring it to scale in a "real world" scenario. Through an 8+ year partnership, we have done just that: created a concrete paver that **cures through carbonization rather than hydration, reducing the carbon footprint up to 70% and conserving water by 80%** while producing a paver that is stronger with more vibrant color, greater resistance to de-icing salts and is free from primary efflorescence.

SOLIDIA—based in Parsippany, NJ—has over 100 patents and is on a track to be the global leader in cement and concrete technology, drastically reducing the carbon footprint over products made with Ordinary Portland Cement (OPC). It is expected that Solidia products will be available world-wide within five years.

EP HENRY is the first company to offer concrete products made with Solidia starting with a line of paving stones and extending to concrete block products in the near future.

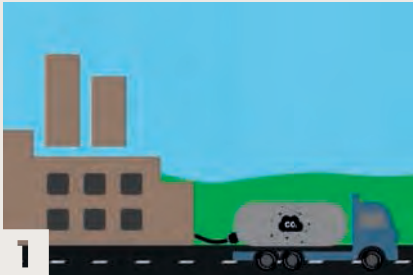

Inc. NAMED **SOLIDIA**
MAGAZINE

“The most promising new company in 2020.”

REDUCING THE CARBON FOOTPRINT

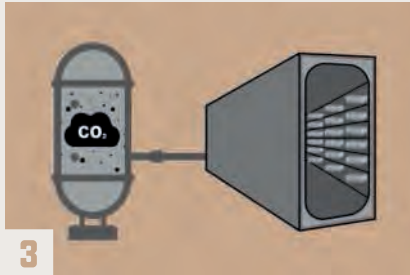

THE PROCESS IS COMPLEX. THE CHOICE IS SIMPLE.

1
CO₂ gas captured at industrial facility instead of being released into the atmosphere

2
CO₂ gas transported to EP Henry manufacturing facility

3
Inside curing chamber, water is removed from the concrete to allow the CO₂ to get in and carbonize it, permanently storing the CO₂

4
Up to 70% reduction of carbon footprint and up to 80% removed water being reprocessed vs. using ordinary Portland Cement (OPC)

SOLIDIA PROCESS

A HEALTHIER EARTH CAN START WITH YOU

Everyone can do their part to help save the planet. By choosing EP Henry Solidia Pavers for your Hardscaping project, you have made a conscious effort to reduce the carbon footprint for future generations. We can even provide you with Solidia Authorized contractors who are versed in the products offered and their environmental benefits,

And going "green" doesn't mean sacrificing style: we offer Solidia pavers in a wide range of colors, shapes and textures and are constantly expanding our product offering.

“No [efflorescence] repairs or cleanings.”

Hear what the contractor on this project says about Solidia Trilogy Pavers and his very happy clients.

Solidia Trilogy Allegheny

SOLIDIA TRILOGY is a 3-piece paver system that is taking the market by storm. Available in sculpted and smooth textures, it accommodates both classic and contemporary design aesthetics. And with a wider, 7mm joint spacing, Solidia Trilogy can be designed for permeable applications. It also has its own dedicated border in matching and contrasting colors to complete this trending look.

ECO Permeable Paver Collection

EP Henry's SOLIDIA ECO line of permeable interlocking concrete pavers represents the future of paving.

Today more than ever our waterways are under environmental stress. Each new roadway, residential development, office park or shopping mall creates an obstacle to the earth's natural water filtration process.

Preventing stormwater runoff—and the pollutants it carries to our waterways—has become an increasing focus of local, state and federal agencies and permeable interlocking concrete pavement systems are being more widely turned to as a solution.

ECO permeable pavers bring beauty and function to sustainable design, allowing rainwater to recharge into the ground, reducing stormwater runoff. They're considered a "Best Management Practice" (BMP) for stormwater management, can earn points towards LEED certification and many municipalities are offering incentives to use them.

When EP Henry began manufacturing with SOLIDIA cement, we prioritized our ECO permeable paver line as the first SOLIDIA offering, understanding that it truly is the future of paving. Solidia ECO Pavers represent a one-two punch of reducing both stormwater runoff polluting our waterways and CO₂ emissions harming the atmosphere for the maximum environmental benefits.

**BEAUTIFUL. SUSTAINABLE. SMART.

A HISTORY OF INNOVATION

What does disruptive technology look like?

In January of 1904, the following appeared in the local newspaper about my great grandfather, E.P. Henry, an early innovator in bringing concrete block to market.

Concrete block was the beginning of EP Henry Corp. In our nearly 120 year history, we have always operated under the premise that what made us successful today doesn't ensure our success tomorrow.

—JC HENRY

Fast forward to 2021 >

A **BETTER** CONCRETE
A GREENER **PLANET**

EP Henry offers the first collection of paving stones made with Solidia concrete, a game-changer in combating climate change and reducing the carbon footprint. See pages 2–19 for more information on Solidia and the products offered.

Cast Stone Wall

DECEIVINGLY SIMPLE – SIMPLY STUNNING

EP Henry expands our premium wall system with the addition of the popular LedgeStone profile and 3 new colors. But don't take our word for it—hear what homeowners and contractors alike are saying about Cast Stone Wall.

See pages 61–68 for more information and the complete collection.

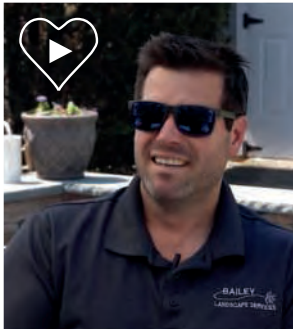

“The new LedgeStone changed things big time. It's something that looks like natural stone but at a fraction of the cost.”

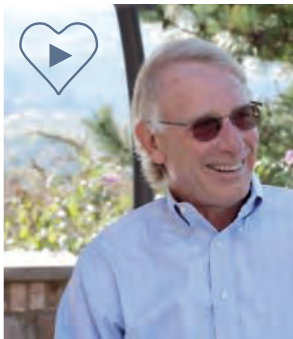

“The look and feel of the product is really neat. It seems like EP Henry is on the cutting edge.”

Click the code below to see and hear more about the beauty of Cast Stone Wall.

“Being sealed from the factory, from EP Henry, has been a fantastic option for our clients. It cleans up super easy and it really limits the amount of maintenance that’s required.”

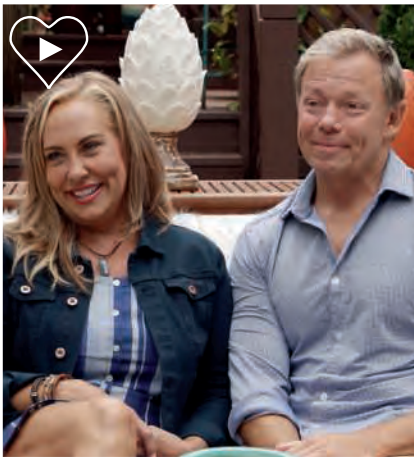

“We had a patio with true bluestone and the layers of the stone would slowly come apart. We made the decision to go with the Belmont after looking at competitive products.”

Click to hear more about why contractors and homeowners choose Belmont. >

“It’s really nice to go back to a jobsite in 6, 9 months, a year and seeing the bold rich colors.”

“I always do a lot of research before I invest in anything and EP Henry ColorTech just really stood out to me. Because we’re entertainers, we’ll have a lot of people on this patio.”

Click to hear more from these and other customers who love the rich color and maintenance-free beauty of ColorTech. >

Belmont & ColorTech Pavers

ENHANCED COLOR. ADVANCED PROTECTION

In 2021, we’re expanding our Belmont line to offer more Cap and Step pairings to go with our Cast Stone Wall Collection.

While Belmont Caps were designed for our Cast Stone Walls, they’re a perfect complement to any application. Learn more about Belmont and ColorTech on pages 44–53 and 94, 95 & 98.

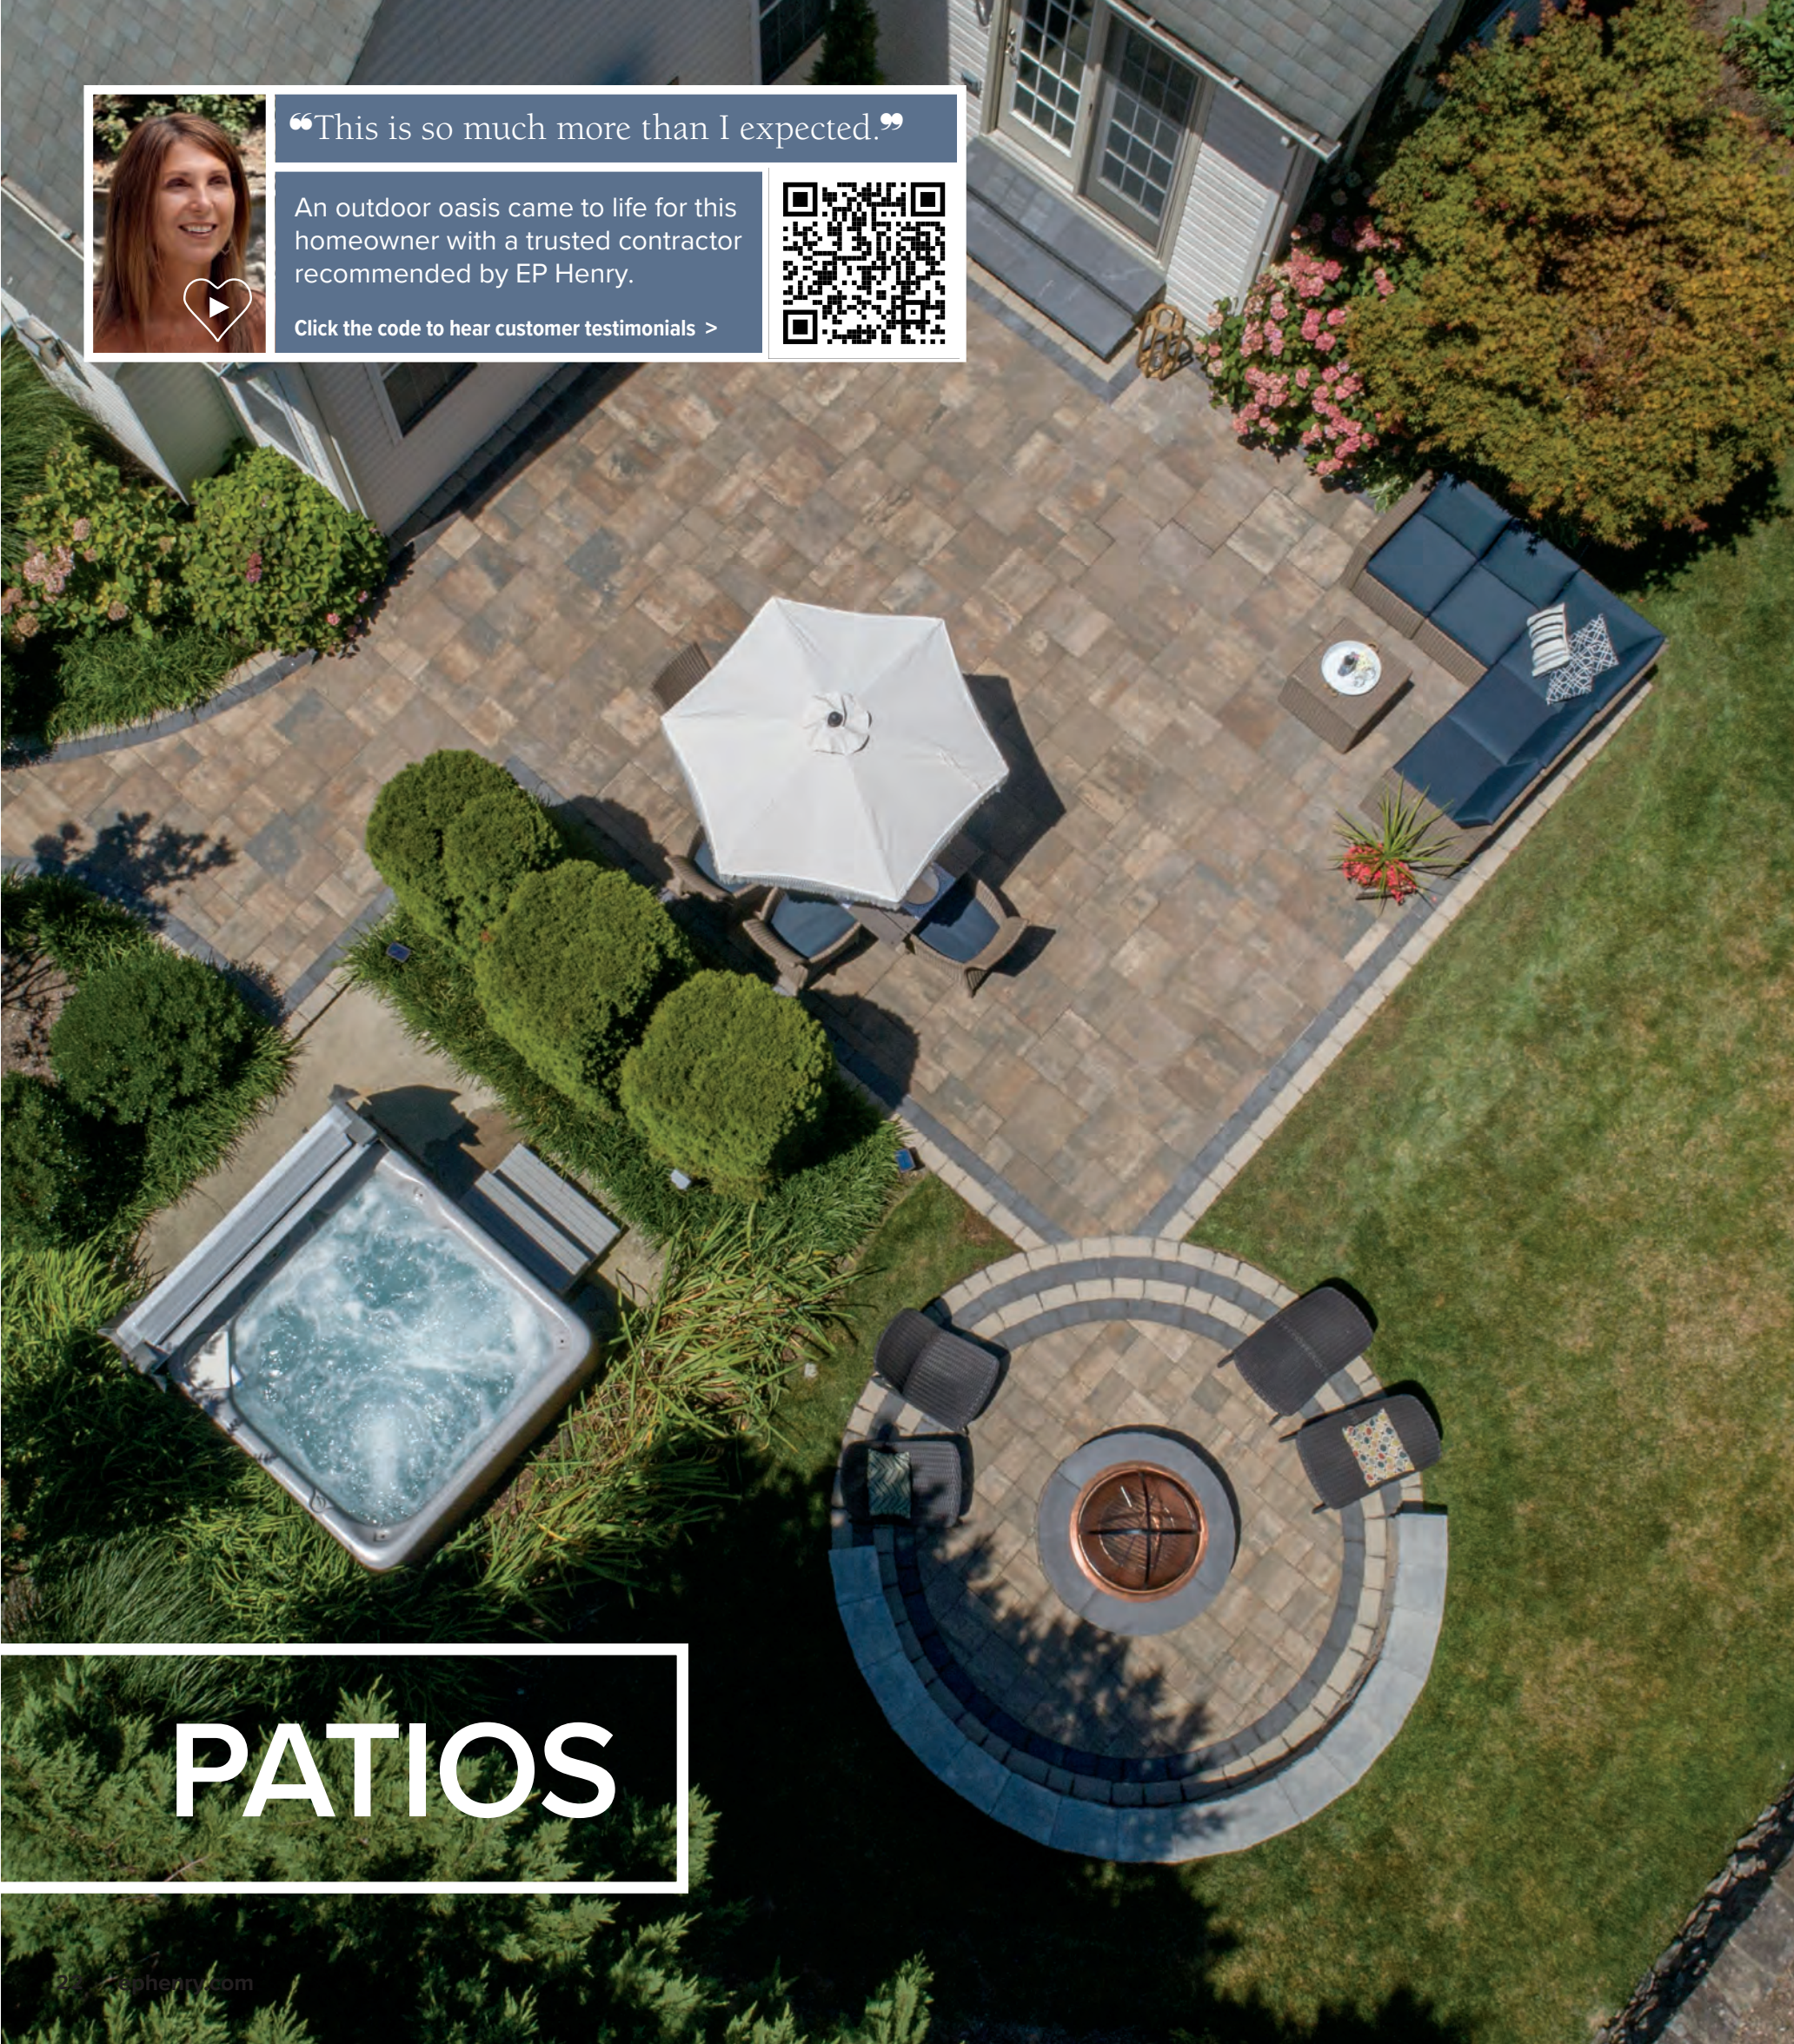

We continually strive to ensure that we are offering the most innovative and integrated product offering on the market, ensuring your satisfaction with all aspects of your project.

“This is so much more than I expected.”

An outdoor oasis came to life for this homeowner with a trusted contractor recommended by EP Henry.

PREMIERE PAVER COLLECTION

Belmont Bluestone

Only EP Henry offers the exceptional colors and lasting protection of **ColorTech™ & Belmont Pavers.**

EP Henry's Premiere Paver collection delivers next-level durability, unparalleled color richness, and enhanced protection from spills, stains, and UV rays.

Our Premiere Collection of Bristol Stone and Chiseled Stone pavers are made with ColorTech, our proprietary integral sealer that's "baked in" to the paver to deliver enhanced protection along with rich colors that mimic shades found in natural stone. We've incorporated similar technology into our Belmont line, allowing you to avoid the time and expense of topical sealing. Save time and increase performance with ColorTech and Belmont pavers.

Our newly-expanded Belmont line is now available in caps and stair treads as well as pavers. Choose EP Henry's Premiere Collection for long-lasting color and durability that enhances the appearance of your backyard today and protects your investment for tomorrow.

Turf Paver units should be spaced 1/8" apart, installed with core marks up and are not recommended for high traffic areas. **For frequently traveled vehicular areas, ECO™ Cobble® and ECO™ Pavers are the recommended permeable pavement solutions.**

EP Henry recommends consulting a Professional Engineer for commercial applications.

Cast Stone Wall Collection

Single Sided Cast Stone Wall Aztec
SHOWN IN LEDGESTONE PROFILE

Single Sided Cast Stone Wall Breckenridge
SHOWN IN CUT STONE PROFILE

A Premium Natural Stone Look Without the Cost Premium

Cast Stone Wall is far and away the most popular premium wall system in the market. Why? Because it is the successful marriage of two technologies—dry-cast concrete block and manufactured stone veneer (msv)—produced in an automated manufacturing facility. The result is a dry-stack wall system that looks like natural stone at a fraction of the price.

In the past, there were 2 ways to achieve a “stone-look” wall, both very labor intensive:

- Hand selecting and fitting irregular, quarried stone pieces together OR
- Building a concrete block wall and then mortaring veneer stone pieces to the face

Labor in these cases comprises up to 90% of the overall wall cost. Cast Stone Wall cuts that labor cost by as much as 2/3rds.

The Cast Stone Wall Collection comes in two stone profiles: Cut Stone and Ledgestone, both of which are available in the same wall systems and using the same simple “Lego-like” installation methods.

TURN THE PAGE TO LEARN MORE AND TO VIEW THE FULL COLLECTION OF CAST STONE WALL PRODUCTS. >

“Most of our guests are surprised when I tell them it’s not real stone.”

Click to hear why homeowners and contractors opt for Cast Stone Wall over natural stone. >

Cast Stone Wall

Deceivingly Simple— Simply Stunning

The Cast Stone Wall Collection includes:

- Single Sided for retaining walls
- Double Sided for free-standing walls
- Garden Wall for low height walls
- Square and Round Fire Pit Kits

Cast Stone Wall Face Shells

Additionally, we offer all of our Cast Stone Wall profiles and colors in a veneer Face Shell option to use for outdoor kitchens, fireplaces, house facades and more for a completely seamless look.

Double Sided Cast Stone Wall, Cast Stone Wall Face Shells and Cast Stone Wall Square Fire Pit Kit Cut Stone Birch; Belmont Caps Brownstone

Belmont Caps
Our factory-sealed caps are the perfect complement to the natural look of Cast Stone Wall.

Cast Stone Wall LedgeStone Aztec; Solidia Trilogy Yuma; Solidia Forma Brown and Alabaster border

Introducing LedgeStone

The most natural-looking wall system on the market just got better with the addition of LedgeStone to complement our original Cut Stone profile. Offered in 3 new color blends, the LedgeStone profile comes in the complete collection of Cast Stone Wall including single- and double-sided walls, garden walls, fire pit kits and more.

Cut Stone and LedgeStone represent two of the most popular stone profiles in the market. And they pair beautifully with our most popular paver shapes including the new Solidia Trilogy (see p. 7).

2 Beautiful Profiles

Cut Stone offers the sophisticated look of expertly cut and fitted stone from the quarry. Its hand-chiseled appearance and broad color range are evocative of natural limestone.

LedgeStone is popular for its linear, irregular shapes and sizes which complement almost any home style. Typically seen in a dry stack application, its rough texture captures light and shadow creating a natural, rugged appeal.

ISOKern Magnum Fireplace with Cast Stone Wall Face Shells and Double Sided Cast Stone Wall LedgeStone Aztec

EARTHCORE ISOKERN MODULAR FIREPLACES

For over 25 years, Earthcore's Isokern Systems have been the leader in safe, lightweight, easy to install fireplace systems and are backed by a Lifetime Warranty against manufacturer defects.

- The Standard series** comes in 36", 42" and 46" openings.
- The Magnum series** comes in 36", 42" and 48" openings.

Please visit the products section of our website for more information on Isokern Fireplaces.

ISOKERN Outdoor Kitchen

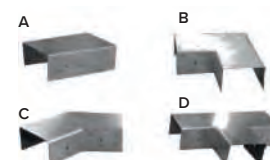

ISOPanel Kitchen with Cast Stone Wall Face Shells Cut Stone Aspen

ISOPANEL MODULAR KITCHENS

Isokern has streamlined the construction of building the classic culinary outdoor kitchen for quick assembly. Using our Isokern Panels and Clips, building a beautiful, durable and practical outdoor kitchen is easier than ever. The IsoPanels will also support the Iso'ven for added options to construction.

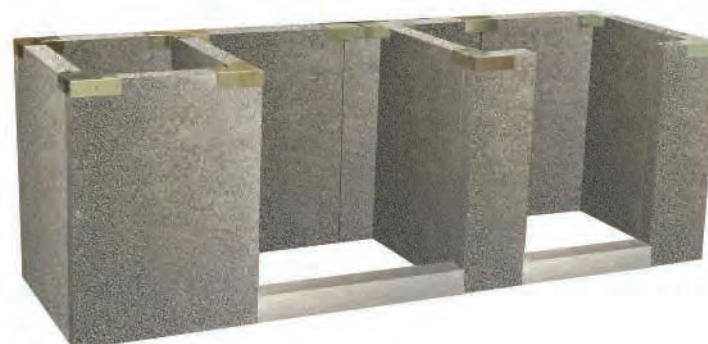

ISOKERN PANELS

- **Dimensions per panel:** 24" w x 34" h x 3" d
- Each panel weighs only 100 lbs, so they're easily moved when assembling your new outdoor kitchen components.

CLIPS

- **Use:** Slide the appropriate clip over the junction of 2 adjacent panels for holding them together while the mortar is applied.
- **Options:** A. Straight B. 90° C. 45° D. T clip.

ISO'VEN WOOD BURNING PIZZA OVENS

ISOKern Fireplace and ISO'ven with Cast Stone Wall
Cut Stone Face Shells Birch

Iso'ven

COMPLETE THE LOOK

ISO'VEN

There's nothing better than a real wood burning oven. Introducing the Earthcore Iso'ven Wood Burning Oven, the user-friendly, remarkably affordable outdoor wood burning pizza oven made from our exclusive volcanic material. Created for easy installation, the quick-fire Iso'ven heats up to 800 degrees in an hour. The Iso'ven Wood Burning Pizza Oven comes with everything you need to get started. Perfect for 12" pizza, bread, wings and more. Includes: Proprietary Oven Liner, Refractory Mortar, Cooking Surface, Thermometer and Starter Fire Kit.

ISOKERN AND EP HENRY'S CAST STONE WALL FACE SHELLS

All Isokern fireplaces, pizza ovens and modular kitchen kits can be made "personally" yours by customizing it with EP Henry's beautiful Cast Stone Wall Face Shells, the closest match to real stone at a fraction of the cost.

22" x 53" x 43"
1,100 lbs

TABLETOP OVEN WITH OPTIONAL STORAGE SPACE

Fires strengthen the bonds between friends and family. Recognizing this, Earthcore developed the ideal companion for your Iso'ven Wood Burning Pizza Oven — our Table Top Oven with Optional Storage Base. Adding a new dimension to backyard dining, it allows you to choose the height of your Iso'ven in relation to the rest of your outdoor kitchen or living space.

31 1/2" x 53" x 28"
850 lbs

OPTIONAL STORAGE:

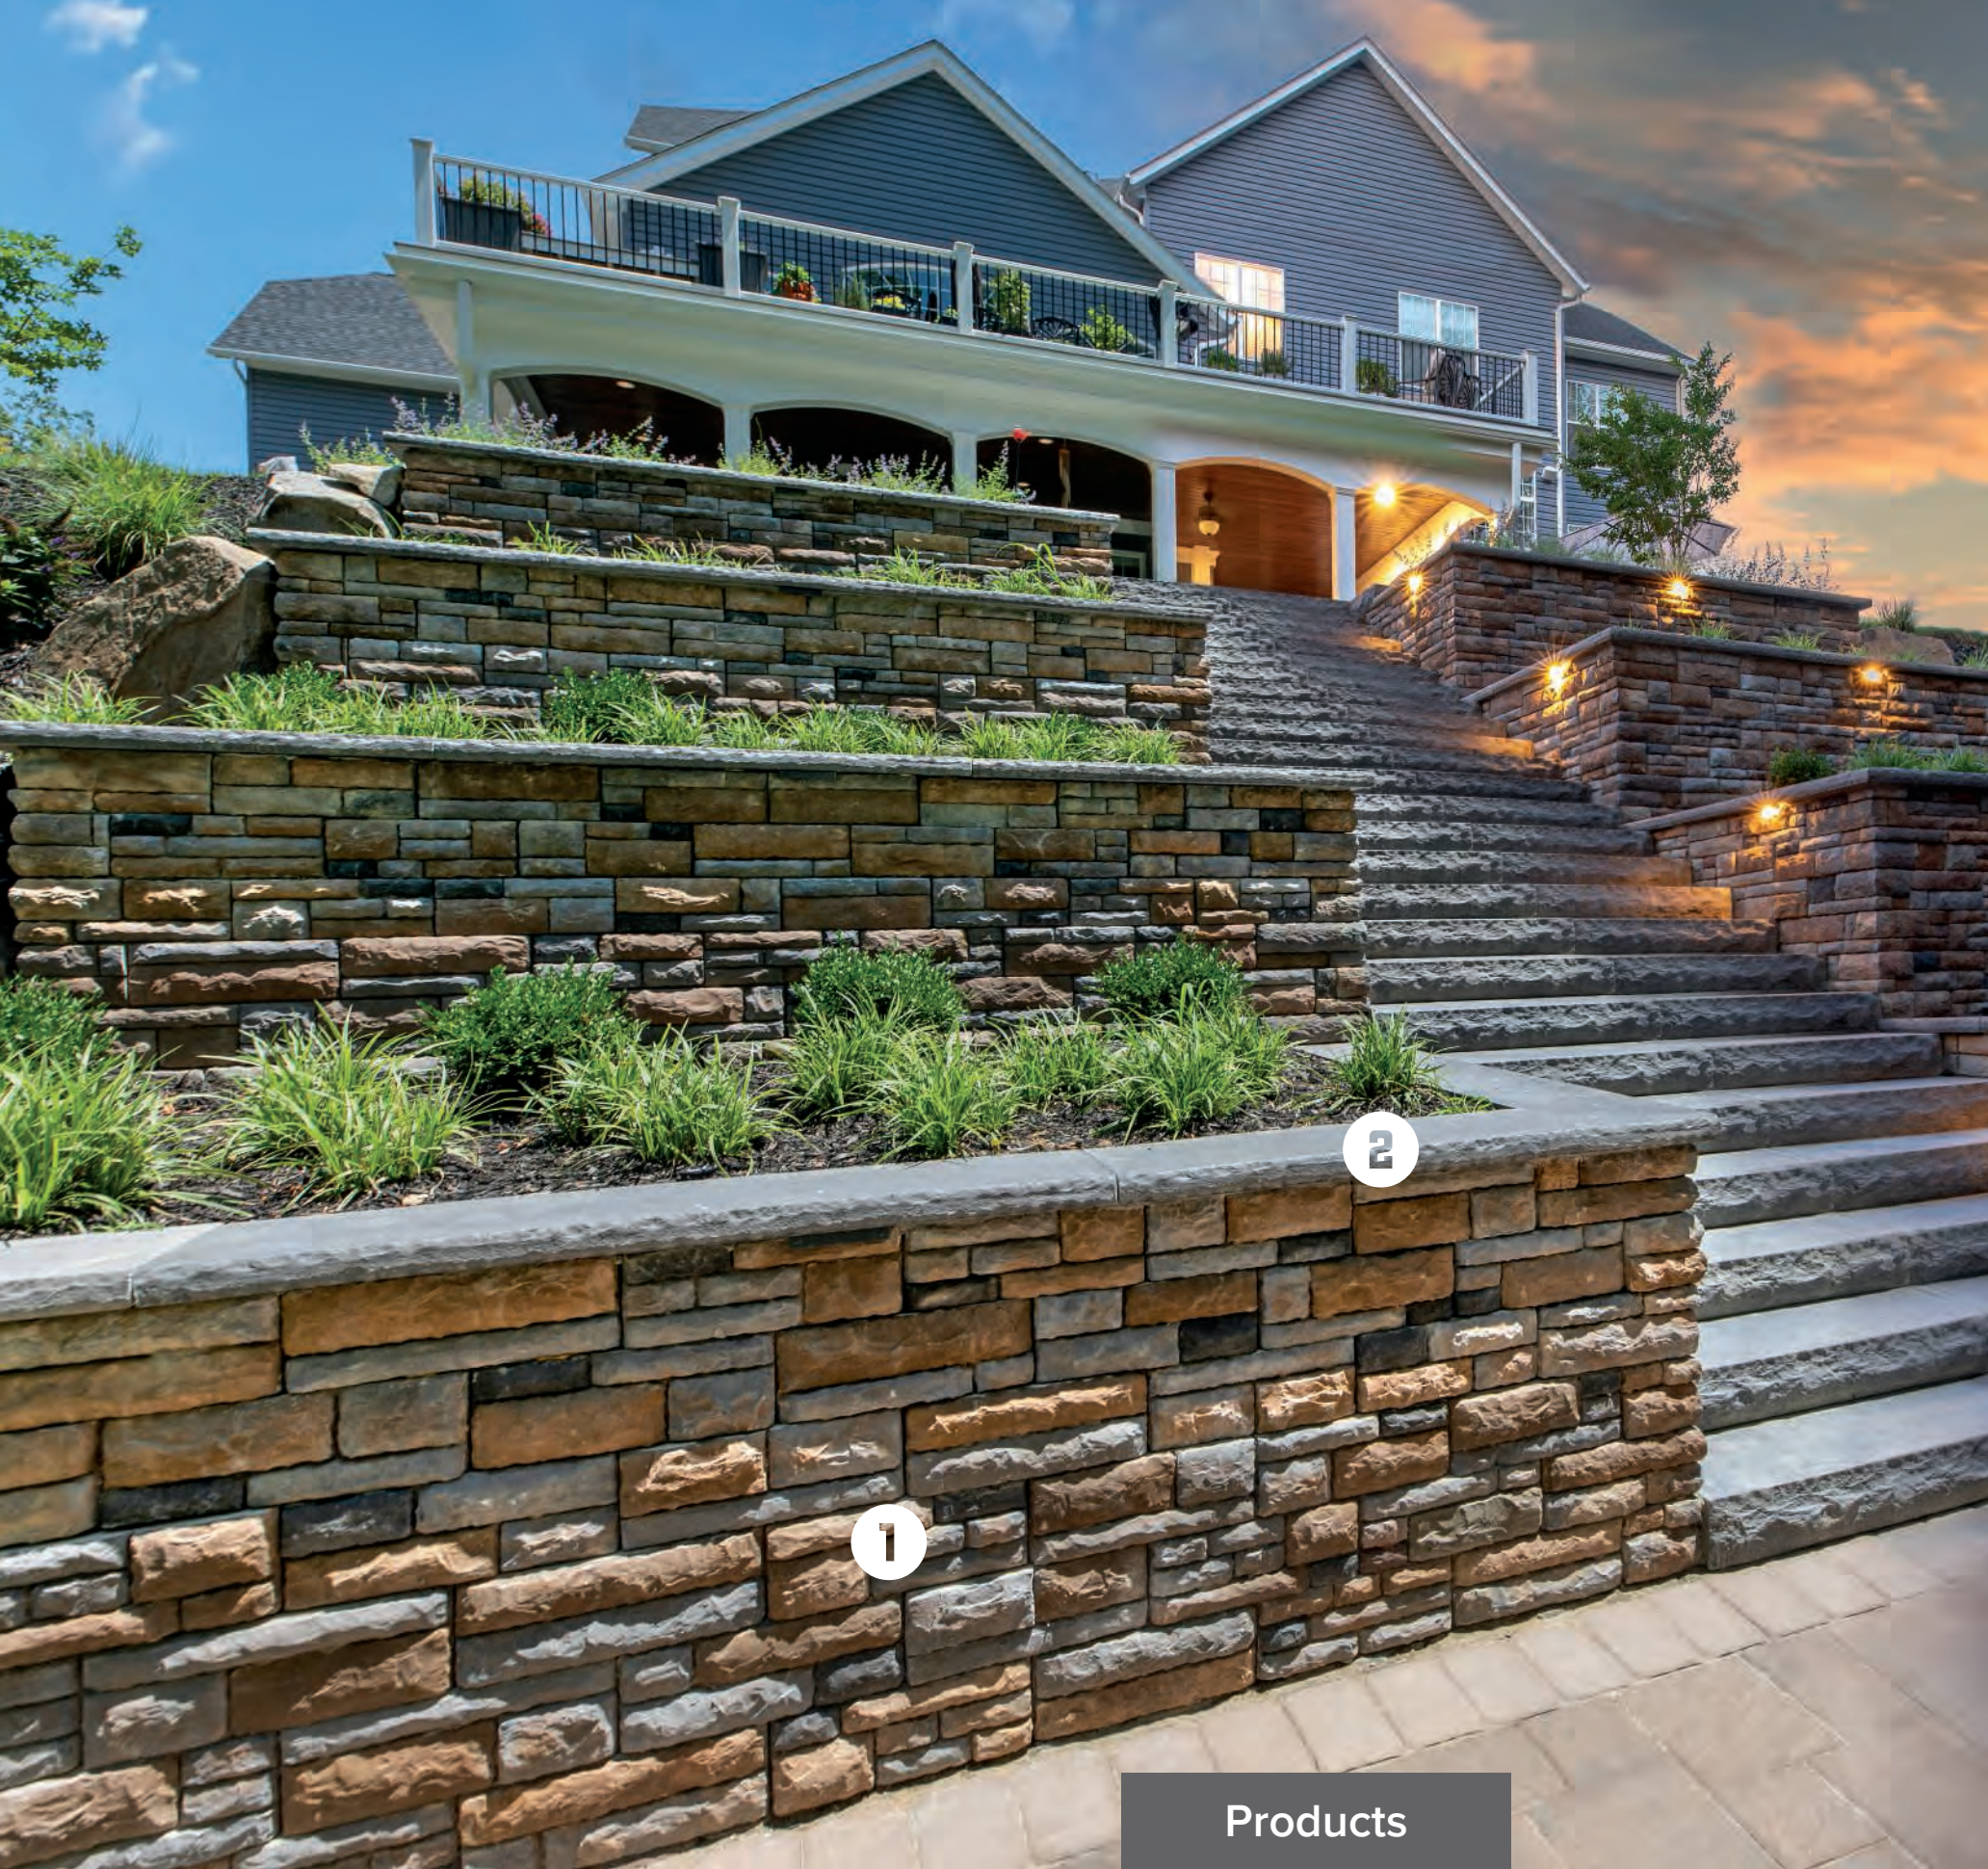

Ample room for wood, pizza peels, aprons, cooking tools and more.

30 5/8" x 9" x 23"
90 lbs

OPTIONAL HOOD:

Following the classic approach of traditional wood burning ovens, the Iso'ven is designed to vent through the front. But at Earthcore, we believe customization creates satisfaction. So if you prefer a flue, we now offer a hood for Iso'ven designs, giving you the freedom to finish it in your own personal style.

Virtually Limitless Design Possibilities

EP Henry’s extensive range of colors, textures, shapes, styles and price points offer endless opportunities for cohesive and personalized designs. This property demonstrates the many outdoor projects that can be achieved seamlessly when you have the right product selection to start.

6x9 Chiseled Stone Sonoran with ColorTech and Solidia Forma Charcoal double border (soldier-sailor); Chiseled Stone I Sonoran with ColorTech

Defined Borders

Define spaces, create conversation starters, wow the neighborhood and increase curb appeal.

Soldier Border

This is achieved when laying rectangular shaped pavers perpendicular to the field (in a row side by side)

Sailor Border

This is achieved when laying pavers parallel to the field (end to end)

As shown here, these borders can be used alone or together, and mixing colors and styles is common.

Solidia 6x9 Old Towne Cobble Brown single and double sailor borders help define outdoor rooms in this large field of Solidia Trilogy Sun Valley

SELF BORDERS

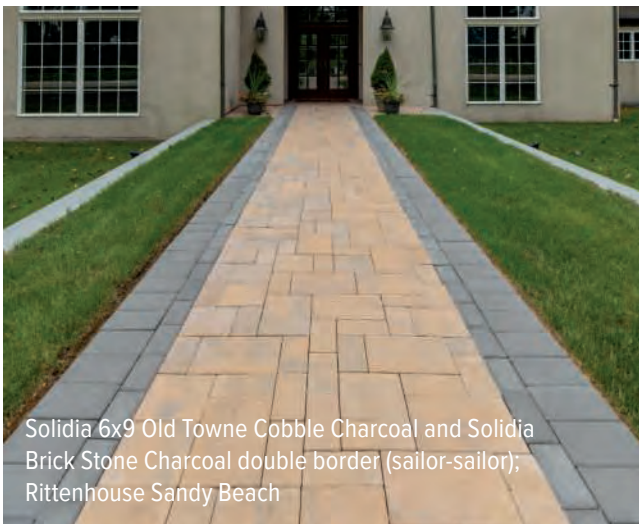

6x9 Chiseled Stone Slate Green with ColorTech soldier border; Chiseled Stone I Slate Green with ColorTech

4 1/2 x 9 Rittenhouse Charlevoix sailor border; Rittenhouse Charlevoix

Wider sidewalks benefit from a double border vs. a more narrow walk that looks better with a single border row

Solidia 6x9 Old Towne Cobble Charcoal and Solidia Brick Stone Charcoal double border (sailor-sailor); Rittenhouse Sandy Beach

6x9 Chiseled Stone Slate Blue with ColorTech sailor border; Bristol Stone I Golden Maple with ColorTech

Solidia Berkshire Pewter Blend and Equinox pavers serve to outline the overall space as well as define "sports courts" within in; Field pavers are Solidia Berkshire Pewter Blend and Bristol Stone I and II Pewter Blend

Border Cross-Reference Guide

While there are almost endless possibilities in border design, this cross-reference chart is intended as a starting point for what styles pair best for your field and border pavers.

Color Palette

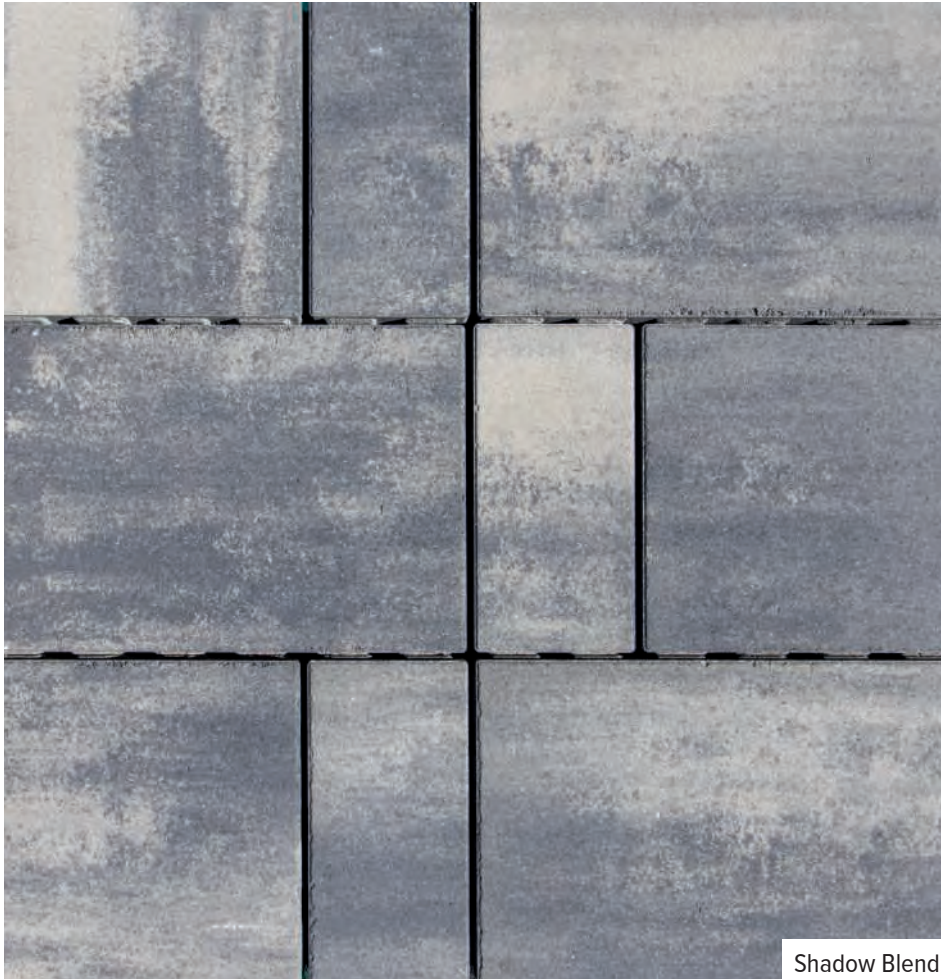

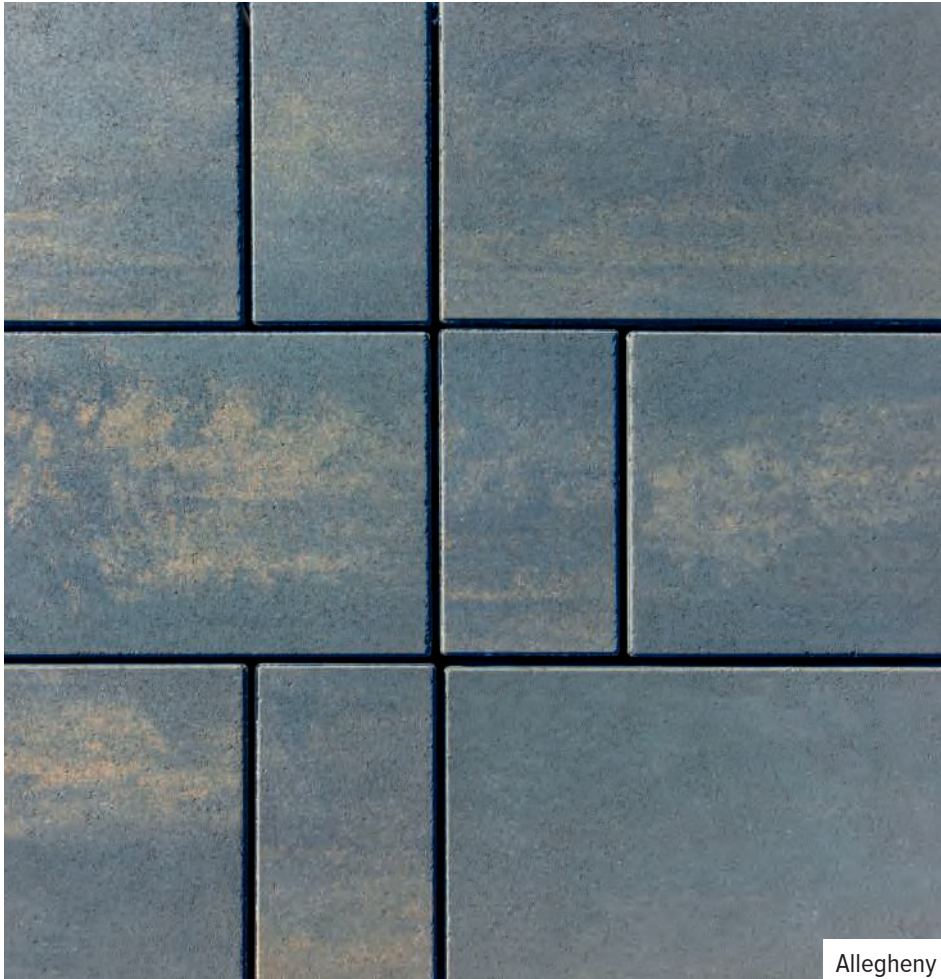

EP Henry’s color offering for pavers and walls represent the most popular and natural looking colors on the market. We have carefully designed this color palette to allow the greatest flexibility in creating matching, complementary and/or contrasting combinations to customize your outdoor hardscaping design to your own unique taste. The following pages offer larger swatches of our most popular colors to provide a better glimpse of the texture and color range. It is always recommended, however, that final color selection be made from physical product samples.

VISIT A DISTRIBUTOR

EP Henry strongly recommends that you visit an EP Henry Authorized Hardscaping Distributor® before making your final product(s) selection. There you can see color, texture and scale of products through in-ground and/or rack displays.

They can also assist you with calculations, samples and ancillary materials to complete your project.

WARRANTY DETAILS

INDUSTRY EXCLUSIVE LIFETIME PRODUCT WARRANTY AND LIMITED INSTALLATION WARRANTY

Because we believe that the best warranty is one that you never use, we build quality into every product. We are so confident in our products that we offer a Lifetime Warranty on the structural integrity* of our paving stones and wall systems for residential use. At no cost to you, EP Henry will replace paving stones and wall system products whose structural integrity is found to be defective under normal use when properly installed according to EP Henry standards and guidelines (labor excluded). We also offer an industry exclusive Limited Installation Warranty on projects installed by an EP Henry Authorized Hardscaping Contractor®, referred through our Project Services team.**

For complete terms and conditions of the warranty, visit ephenry.com.

*A defect in “structural integrity” means the inability of a properly installed and maintained paver or wall product to perform the function for which it was designed due to defects in material. A defect in “structural integrity” does not mean a function caused by improper installation, workmanship or efflorescence.

**Homeowners must register their project through EP Henry Project Services. Proof of purchase required.

Cast Stone Wall and Cast Veneer Stone products are covered under a separate warranty; please visit our website for details.

PRODUCT NOTES

READ PRIOR TO PURCHASING OR INSTALLING ANY PAVER OR WALL PRODUCT

If you believe there is an issue with product style, color, or quality, do not install it and please contact your distributor immediately. Save all cube tags and provide to the distributor or manufacturer’s representative who comes to the job site. INSTALLATION OF PRODUCT IS DEEMED ACCEPTANCE. No claims or returns on installed product will be allowed.

EFFLORESCENCE

Efflorescence is a whitish, powder-like deposit common on concrete and masonry products which will normally disappear over time with natural weathering. According to the Interlocking Concrete Pavement Institute (ICPI), it will typically stop developing within 18-24 months. Although it may present an aesthetic concern, efflorescence will not affect the structural performance of pavers or wall systems. Efflorescence is a natural occurrence for which EP Henry accepts neither responsibility nor liability. For more information, please visit: www.icpi.org, www.ncma.org, www.masonryinstitute.org, or www.bia.org.

POLYMERIC SAND HAZE

Polymeric haze from the use of polymeric joint sand may appear on your pavers if the sand was not removed from the surface of the pavers properly. This does not in any way affect the integrity of your pavers or the installation. The haze will weather away naturally with time. If you wish to remove it with a cleaning product, it is recommended that you contact your distributor or the manufacturer of the polymeric sand used for advice and product recommendations. EP Henry accepts NO responsibility nor liability for this occurrence.

DE-ICING SALT STATEMENT

NOTE: This is an updated recommendation based on new testing within the concrete industry.

Rock Salt (sodium chloride) or NaCl) is the least damaging to concrete materials and should be used whenever possible. Please refer to ICPI’s De-Icing Chemical Technical Bulletin for more information.

COLOR

EP Henry Hardscaping products are made from natural materials and variations in shade can be expected. Additionally, many of our colors are achieved through a random mixture of several colors and the presence of any of these colors will vary from one unit to another. It is recommended that the installer draw from multiple cubes of material during installation to disperse any color range more uniformly. The end user of the material (home or business owner) should make their selection from current physical product samples that show the range of color.

DON’T SCUFF THOSE PAVERS!

EP Henry recommends the use of a vibrating plate compactor with a protective pad to prevent surface damage to the pavers during installation. EP Henry will not be responsible for compaction scuffs or burns on pavers. **PLEASE NOTE**, some pavers and all Cast Stone slabs should not be compacted using a vibrating plate compactor.

Look for this symbol  on product pages for restrictions.

NEXT STEPS

Whether you are looking to add a new front walkway to increase your curb appeal or planning an awe-inspiring outdoor living space, beginning a construction project can be a bit overwhelming at first.

We get it.

It's a big decision and you want it done right. We can help with the groundwork. In this fast-moving world of automation, sometimes you just need to talk to a live person, one-on-one. That's why we have a full-time Project Service team to take your call and answer your questions.

Give us a call.

We'd love to learn about your project. We can help you find experienced EP Henry Authorized Hardscaping Contractors® in your area so you can begin discussing design ideas and getting quotes that fit your space and budget.

We take it a step further.

Because our goal is to provide you with the best product and ensure you get the best finished project, we have experts at every level to support our distributors and contractors with Technical and Product Installation assistance.

We've got you covered.

We are so confident in our products that we offer a FREE Lifetime Warranty on the structural integrity of our paving stones and wall products for residential use. That's saying a lot for a company that began in 1903. Take advantage of our industry-exclusive Limited Installation Warranty on projects installed by an EP Henry Authorized Hardscaping Contractor, referred through our Project Services team.

Get started—for FREE!

Visit ephenry.com/free-services and an EP Henry Project Services team member will help you go from inspiration to installation.

A STORY OF TRANSFORMATION

Our EP Henry Experience

From concept to completion, one family’s journey in transforming their backyard.

A very happy customer, Henry Smith, wrote this wonderful review of his construction process. We are proud to share it with you.

My family purchased a property located on the Delaware River in historic Bucks County, PA. We contracted with Ron Pone, a small, old-school builder in order to expand and renovate the home. Ron provided **an exceptionally high-quality product with a stress-free experience.**

The plan was to build a large, highly durable, low maintenance deck in order to optimize the outdoor space from the rear of our home to the river’s edge. Ron brought in GreenPete, LLC to design the space. Pete recommended EP Henry products and provided us with a catalog.

CONCEPT RENDERING

BEFORE

GreenPete, LLC | Peter Donahue

“It was like looking at a picture of the final product. This allowed me to sign off on the design with confidence.”

REGRADING

“Along with the Cast Stone Wall, EP Henry Bristol Stone Phoenix pavers allowed us to create a modern backyard without detracting from the original style of the neighborhood.”

ORIGINAL SEA WALL

“We wanted to match the existing sea wall. The EP Henry Cast Stone Wall LedgeStone in Aztec perfectly complemented it.”

PRODUCTS USED:

Bristol Stone Phoenix Color Tech pavers for the deck surface, and the new **Cast Stone Wall Ledgestone product in Aztec**.

“I thought that the Aztec color and random pattern complimented the existing stone work of our home and sea-wall beautifully.”

The Verdict

“EP Henry provides the highest quality products and support. I recommend them to everyone; Whether you reach out to my team or put together your own dream team, surround yourself with skilled individuals who care, and enjoy the ride!”

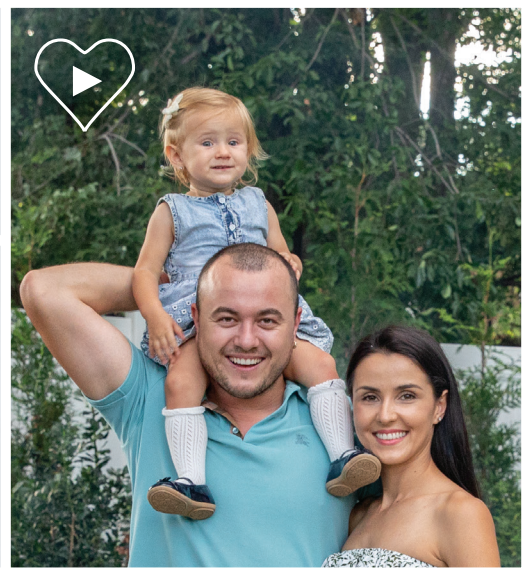

“This is like a new beginning for us. It’s just pure enjoyment.”
